

DISAVOWAL OF U. S. RIGHTS ARE BEING REGARDED AS UNFRIENDLY

Physicians Work With Pulmotor for Hours in Effort to Save the Life of Mrs. Nelson C. Brown.

MRS. HEWEY IS BURNED, AND GETS SEVERE SHOCK
Accident Is Believed to Be Result of "Crossing Up" of Two Commercial Wires of Power Company.

Mrs. Nelson C. Brown, aged 26, of 17 South Church street, Decatur, Ga., was electrocuted in the bathroom of her home Wednesday afternoon about 2:30 o'clock, and Mrs. Curtis C. Hewey, a neighbor, of 43 South Church street, was injured as the result of a shock she suffered while ironing some clothes with an electric iron in her home.

The accident is the result of what is believed to be the "crossing up" of two commercial wires of the Georgia Railway and Power company at a point where they run through a large tree in front of the residence of M. B. Mason, of the American National bank, 11 Church street.

A negro servant in the home of Mrs. H. W. Wing, 39 Church street, also received a severe shock about the same time Wednesday afternoon when she attempted to use an electric iron.

COULD SEE FLASH OF FIRE.
Mr. Mason, who, with his wife, was one of the first to reach the side of Mrs. Brown just before she died, declared that the insulation of the commercial wires, which furnish lights for the houses on Church street, is badly worn and that the wires are in contact.

A big flash of fire came after the death of Mrs. Brown, and an inspection of all the wiring along Church street, declared that they could not say that the trouble was in this tree.

W. H. Glenn, of the power company, visited Becker last night and later said that the source of the trouble was unknown.

Mr. Glenn stated that the voltage carried by the commercial wires on Church street was 2,500 volts each.

Mrs. Brown's death was surrounded with tragic features. She was expected to become a mother. Her only little girl, Shirley, aged 5, who has blonde curls, was near her mother at the time of her death, but neighbors rushed her from her mother's side just before she died.

Mrs. Brown had gone into the bathroom and in some way had come in contact with the socket of the electric iron. No one saw the accident.

RUSH TO HER AID.
The negro maid heard her screams, and, rushing into a room that adjoins the bathroom, caught Mrs. Brown, and her arms as she fell.

Mrs. Wing, Mrs. Frank Fakes and Mrs. Mason, all neighbors, rushed to the scene and in some way had come in contact with the highly charged wires.

HUSBANDS NOTIFIED.
Mr. Brown, who is resident manager of the Charles E. Hires company, manufacturers of Hires Root Beer, and Mr. Hewey were quickly notified and rushed from the city where they were at work. Mr. Brown's car was late, and Mrs. Hewey was again conscious when her husband reached her bedside.

Mrs. Hewey, when she awoke, was wearing a dress. She told her husband the following story:
"I was ironing clothes on a plain wooden board, using the electric iron. The children were playing on the floor. Sister (Miss Mary Edmonson) and I were sitting on the sofa. I suddenly felt a terrific shock, and I fell. I was not conscious for some time, but when I came to, I remember knocking over the ironing table, which caused the iron to fall on the floor, and I was burned by the iron. I was then taken to the hospital, and I was kept there for some time. I am now recovering from my injuries."

NARROW ESCAPE FOR SERVANT.
Little Randall, the servant in the home of Mr. Wing, also had a narrow escape. He was in the kitchen, and was using an electric iron, and attempted to put it away, but he was shocked when he heard a loud buzzing. He was so strong that he couldn't put her down, and he was taken to the hospital. He is now recovering from his injuries.

Federal Prisoners' Plea for Bonbons
Granted by Zerbst

Over 800 Pounds of Their Favorite Sweets Devoured Monthly Now at the Big Penitentiary.

Reforms at the federal prison have reached the "bonbon" stage.

The federal prisoners now enjoy a regular monthly allotment of their favorite candies. The idea is such a tremendous success that more than 800 pounds of bonbons, etc., are consumed monthly.

Hitherto the prisoners have been denied candy, although during the administration of Warden Moyer they were granted chewing gum, magazines and soft drinks. The idea was lent up when Warden Zerbst, Moyer's successor, went to office for candy.

Last month he granted the candy appeal, permitting each prisoner to buy and keep in his cell two pounds of his favorite candy selection, whether it be bonbons, marshmallows, fruit drops, coconut bars or peanut brittle.

The candy is bought in bulk form from an Atlanta wholesale candy store. The bulk purchase is made by the prison trustees and it comes to the prisoners through the commissary.

It is estimated that more than 800 of the 1,200 prisoners in the federal pen are candy lovers.

"Damn Mollycoddles,"
Said Colonel Roosevelt
In His Frisco Speech

San Francisco, July 21.—Theodore Roosevelt spoke twice today at the Panama-Pacific exposition. One address was vigorous in tone, and the other was a brief, personal talk to "the men on the line," soldiers, sailors and marines, at the United States club.

The colonel said that his willingness and ability to be soldiers as desirable attributes of good citizens. He told the enlisted men that a man afraid to fight is not fit to vote, and a "mother" who is willing to raise her child to be a soldier is not fit for citizenship.

He gave the address at the clubhouse here, where he was met by a large number of "War and Peace" was the topic of his address. He said that the war was a necessary evil, and that the United States must be prepared to meet it.

Titanic Battles Which Will Seal the Fate of Warsaw
Are Being Fought North, West and South of the City.

AT BAY ON THE RIVERS, WITH FORTS ON FLANKS, RUSSIANS ARE FIGHTING

Apparently the Austro-Germans Feel Certain of the Outcome, for It Is Said the Kaiser Has Sent for Empress in Order to Make a State Entry into Warsaw When It Falls.

London, July 21.—Titanic battles which will seal the fate of Warsaw are being fought north, west and south of that city. At bay on the rivers, the Russians are fighting desperately to stem the Austro-German onslaught.

To the north on the River Narew the Russians yesterday delivered three fierce counter attacks from the fortresses of Rozan, Putusk and Nowogrodek. The Germans, who had taken an outwork of Rozan, repulsed these attacks, according to Berlin, and apparently have not made further progress southward.

Immediately west of Warsaw, on what is known as the Blue-Grodek line, the Russians have suffered a reverse and are retreating toward the Vistula. Further south, General Woyciech's army is making the Germans toward the same river, which has been reached at one point.

GREAT BATTLE FOR RAILWAY.
South of Transvaal, Field Marshal von Mackensen, who is directing the offensive between the Vistula and the Lublin-Chelm railway.

On the resistance the Russians offer along this front, where the Austro-Germans are making their biggest effort, probably depends the success of the Austro-German operations.

Apparently the Austro-Germans feel pretty certain of the outcome, for it is said Emperor Wilhelm has sent for the empress in order to make a state entry into the Polish capital when it falls.

Things are looking a little more quickly in Courland, where the German claim that successes all along the line have brought them within striking distance of Riga and made it possible to take the city.

There is another battle in progress along the border of Bessarabia, but how this is going official communications do not say.

FRENCH GAIN IN VOSGES.
The French have made another bid for victory in the Vosges. They have delivered several partially successful attacks and have captured the heights dominating the valley from the east. About the same time French airplanes dropped bombs on Colmar. Beyond this and a German attack in the Argonne, which the French assert was repulsed, only artillery engagements have occurred.

The Italian offensive on the Isonzo continues and Rome reports further gains.

One-Third of System Filled Up, Many Out of Repair and Will Not Hold Water, and Others Are Empty.

REPORT MADE BY CODY STIRS GENERAL COUNCIL
If There Had Been Big Fire When Water Main Cracked, Atlanta Would Have Been at Mercy of Flames, Says Chief.

Chief Bill Cody, of the fire department, Wednesday stirred members of general council to action when he reported that one-third of the underground water system in the city was filled up, that many of them are out of repair and will not hold water, and that others are empty.

General council will probably be asked at a special session this afternoon to make an appropriation for putting the city's water system in proper condition and placing some in direct charge of them. "This move is considered all the more important since the unexpected cracking of the big water main Sunday night, which, according to Chief Cody, would have made the fire department helpless had a fire broken out."

Mayor Woodward when notified of the condition of the system of city water, he thought they were being kept in order and filled with water. He said that general council should take immediate steps to have them repaired before the city is threatened by fire again.

Will Offer Ordinance.
Councilman Claude Ashlie, when told of the situation, stated that he would submit an ordinance in general council to place the responsibility for the city's water system on some official of the fire department and to have the city council place the responsibility for the city's water system on some official of the fire department.

Chief Cody asserted that he would secure an expert from the city construction department today and begin at once a survey of the system, with a view to making recommendations to the board of firemen to have them repaired and the old cisterns opened and placed in condition for use.

Some years ago the cisterns were carefully looked after and were built underground out of the best of materials. They were filled with water and filled regularly and on several occasions have been in getting control of large fires.

Chief Cody cited the big mill and a big hotel fire in the terminal building in 1908 when the department saved the city thousands of dollars by using the underground cisterns on Hunter street, just off Whitehall. He said that was the last fire in which the cisterns were used.

On the morning after the cracking of the big water main last night, Chief Cody said that, like other members of the department, he felt sure that the cisterns could be used in case of fire. This led him to investigate, with the result that he found about ten of the cisterns filled up, others empty and several of them cracked. He would not hold water. He found only three that were filled with water.

Many Cisterns Empty.
Some of these cisterns have a capacity of as much as 100,000 gallons of water. Others hold from 50,000 to 20,000 gallons. The cistern at Five Points, with a capacity of 40,000 gallons, is empty. Likewise the 100,000 gallon cistern on Broad street, between Washington and Walton.

"If we needed these cisterns ten years ago, we need them more than ever today," said Chief Cody. "We also need many more and I will ask the city to build more as the finances permit."

Chief Cody said that he had been told that the cisterns were being filled up, and he was surprised to find that they were empty. He said that he was surprised to find that they were empty.

\$80,000,000 Refused To Produce Cartridges For the Allied Powers

Disavowal and Reparation Again Asked of Germany For Killing of Americans

Note Which Will Be Sent to Berlin Today Is a Final Statement by United States in Regard to Future Transgressions of American Rights and Repeats Nothing Will Be Left Undone to Support Position—Proposals by Germany to Respect American Ships Not Carrying Contraband Emphatically Rejected—Future Relations of Two Countries Depend on Germany's Conduct.

Washington, July 21.—President Wilson and Secretary Lansing, conferring at the white house tonight, completed the new note to Germany warning her that the repetition of a disaster, such as that visited upon the Lusitania, or any violation of American rights on the high seas resulting in loss of American lives, will be regarded as "unfriendly." It will be dispatched tomorrow.

The note is in the nature of a final statement by the United States of the interpretation that will be placed by this government on future transgressions of American rights, and repeats that the American government will leave nothing undone to stand by the position it has previously declared.

POINTS MADE IN NEW NOTE.
Among the points in the new note are:

1. The assumption by the United States that Germany, by declaring her submarine warfare to be a retaliatory measure against the alleged unlawful acts of her enemies, has admitted that the destruction of unarmored merchantmen without warning is illegal.

2. German submarine commanders already have proven that they can save the passengers and crews of vessels and can act in conformity with the laws of humanity in making war on enemy ships.

3. The United States cannot allow the relations between the belligerents to operate in any way as an abbreviation of the rights of neutrals, and therefore any violation of the principles for which the American government contends, resulting in a loss of American lives, will be viewed as "unfriendly."

4. The representations which the American government has made in previous notes for disavowal of the intention to sink the Lusitania with Americans aboard, and the request for reparation, are reiterated with renewed insistence.

5. The American government realizes the unusual and abnormal conditions which the present conflict has created in the conduct of maritime war, and is willing to act as an intermediary as between the belligerents.

to arrange a modus vivendi or any other temporary arrangements which do not involve a surrender by the United States of its rights.

6. The proposals made by Germany to give immunity to American ships not carrying contraband, and to four belligerent ships under the American flag, are rejected with the emphatic assertion that to accept such suggestion would be to admit Germany's right to set aside the American contention based on fundamental principles in international law—that nationals may travel anywhere on the high seas on unrelenting ships of any nationality, even if carrying contraband.

FUTURE RELATIONS UP TO GERMANY.

The note is about 1,300 words long. While nowhere in it there is any direct intimation of the course which the United States will pursue in the event of another disaster similar to the Lusitania tragedy, there are emphatic statements throughout the communication pointing out that the discussion

of the principles involved was virtually concluded and that further conduct of German submarine commanders will determine the responsibility for the continuance of friendly relations between the two countries.

The statement that further transgressions will be regarded as "unfriendly" is taken in diplomatic usage to preclude a break in friendly relations unless reparations and disavowal of wrongdoing. President Wilson said it is understood, has considered fully and at length the construction which may be placed on the implications of the note and is prepared to deal with any new situation that may arise.

WILSON HOPEFUL AS TO OUTCOME.

He is hopeful and confident, however, it is said, that Germany having already modified the principle of her submarine commanders, will now take such precautions as seem necessary to prevent any action that would endanger friendly relations with the United States.

From 5 o'clock this morning until late tonight the president, with the exception of a few hours spent in recreation, was at work on a copy of the Secretary Lansing's report which he drafted. He worked on the original and made several changes. The president agreed with Mr. Lansing's suggestions and tomorrow the document will be finally revised in phrasing before being finally sent on its way to Berlin.

ITALIANS PIERCE AUSTRIAN FRONT

Invaders Break Through at Three Points Along the Isonzo—Many Austrians Captured.

Geneva, Switzerland, July 21.—(Via Paris.) A Tribune dispatch from Villach says: "Austrian losses since July 13 along the Isonzo have been 8,000 of whom 1,500 are prisoners. On the Cadof front 1,800 prisoners have been taken and in the Carnic Alps 2,000.

"The Austrian front on the Isonzo has been pierced at three points—Tolmino, St. Lucan and St. Avere.

"The Italians continue to progress in Val Sugana.

"With the aid of aeroplanes the Italians located and destroyed several Austrian batteries near Rovereto.

"The provisioning of Gorizia is a serious problem, as Italian artillery dominates the railway north of the town.

"The Italians are consolidating positions won on the Carso plateau."

ITALIANS GAIN ON ISONZO LINE.

July 21.—(Via London, July 21, 2:30 p.m.)—An official communication issued today says: "While the Italian offensive continues to develop energetically in the Cadore sector, the Austrians are making a serious effort to break through the Italian line in the Isonzo valley. The Italian line is being strengthened with increasing intensity.

"On the Carso plateau the enemy has been driven from some trenches and many prisoners and much material have been captured. Prisoners taken during the 18th, 19th and 20th numbered 24 officers and 1,000 men.

BATTLE CONTINUES ON ISONZO FRONT.

Udine, Italy, July 21.—(Via Paris.)—Wounded soldiers and prisoners arriving from the Italian front report that the battle in the Isonzo region is continuing from east of Gradina to west of Tolmino.

The Italians, the arrival report, are fighting in almost inaccessible positions, and great difficulties are being encountered.

ITALIANS REPULSED, AUSTRIANS CLAIM.

Vienna, July 21.—(Via London.)—The Austrian press reports that the Italian offensive has been repulsed in the Isonzo valley. It claims that the Austrians have captured many prisoners and much material.

The Austrian war office tonight issued the following in reply to the Italian declaration:

"In the Gorizia region the Italians yesterday continued their general attack on the border plateau of Dobbiaco and the Brighetta at Gorizia. The enemy succeeded in taking Monte San Michele, east of Salsomaggiore. This morning Major General Roggeri recovered this battle with troops which had hitherto been in reserve.

"In the Sona sector our troops maintain their positions with great vigor. In the following statement issued from a height to the east of Sona, the Italian offensive is described as taking to flight after suffering great losses.

"Since our troops have also firmly held the southwest edge of the plateau and have repulsed all the bridgehead attacks, the Italian effort, which was carried out with enormous sacrifices, was again unproductive of results.

"On the remainder of the coastal front there is comparative quiet. On the Carinthian frontier nothing of importance has occurred. East of Salsomaggiore three enemy battalions attacked Monte Piano, but were repulsed and fled, losing about two-thirds of their effectives."

AFTER BLOODY RIOT INJURED IN STRIKE KILLED AT BAYONNE, N. J.

New York, July 21.—Quiet prevailed tonight at Bayonne, N. J., after the Standard Oil company where in a riot today between police and strikers one striker was killed and a police inspector, four patrolmen and nearly 100 strikers were hurt. The only death was that of a striker who was killed by a small fire in the plant which were controlled easily.

The strikers later today rejected an ultimatum from the company that they arranged a conference with a strikers' committee and company officials.

Of the eleven special deputies, whose presence led to the disorder, six were taken to Jersey City tonight. Sheriff Kinkadee said tonight that he would not permit any strikers outside the Standard Oil plant. He said he could handle the situation and did not need state militia. Mayor Herron, of Bayonne, earlier in the day had sent a police force to the plant.

In the rioting John Stovack, a laborer, received a revolver wound and died of his wounds in a hospital. The injured man was hurt seriously. The trouble started when a crowd of several hundred strikers gathered outside the plant. The strikers were armed with clubs and stones. The police were called to the scene. The strikers refused to disperse and offered his services toward reaching a settlement. A volley was fired low. The crowd was fired low. The crowd was fired low.

While the rioting was at its height, a fire broke out in the Tidewater works and a small pump house was damaged.

Sheriff Kinkadee arrived soon after the shooting. He placed a line of strikers to disperse and offered his services toward reaching a settlement. A volley was fired low. The crowd was fired low. The crowd was fired low.

CONFERENCE IS HELD ABOUT DETAINED SHIPS

Washington, July 21.—Frederick Coudert, counsel for the British and French governments, today held a conference with the state department regarding points of law involved in the detention of various American ships and cargoes in the Atlantic.

Coudert is about to leave for France and it is believed that one result of his conference will be prompt disposition by the French government of the American ship, the *Albatross*, which is detained by the French government at Toulon. The *Albatross* is a cargo ship which was captured by the French government at Toulon. The *Albatross* is a cargo ship which was captured by the French government at Toulon.

STARCHY FOOD IS GIVEN AS CAUSE OF PELLAGRA

Dr. Goldberger, After Experiments at Georgia Sanitarium, Announces Conclusions.

Savannah, Ga., July 21.—In a statement given to the press here today, Dr. Joseph Goldberger of Washington, D. C., head of the department for pellagra research of the United States public health service, announced his conclusions about the malady and its cause.

"After experiments conducted at the Georgia state sanitarium at Milledgeville, and in a similar institution at Jackson, Miss., we have come to the definite conclusion that our theory, made public last year, that pellagra is the result of eating too regularly too much starchy food, is correct. Patients in these two institutions kept on a proper diet have fallen ill, but patients in these two institutions kept on a proper diet have fallen ill, but patients in these two institutions kept on a proper diet have fallen ill."

FEDERAL PRISON MAY SOON MAKE ARMY SUPPLIES

The visit of Attorney General Gregory to Atlanta, where he conferred with Fred C. Zerbst, warden of the federal penitentiary, was for the purpose of considering Mr. Zerbst's plan for putting United States prisoners at work making army supplies. It was stated by Mr. Zerbst yesterday morning.

"The men are capable," said Mr. Zerbst, "of manufacturing saddles, boots, shoes, clothing and other army necessities. Their workmanship will compare favorably with that of the industrial plants of the country. The bulk of our men will have nothing to do with the work of constructing the addition to the prison building is finished, and it is necessary that some form of labor be furnished them."

Government Will Sue To Recover Money Spent On Stranded Americans

Washington, July 21.—The government will sue American citizens who have apparently failed to do so, to repay money expended for their relief when they were stranded in Europe at war's outbreak. Many of the stranded Americans have been aided have reimbursed the government, but Secretary McAdams said today a number had refused to pay and that the government was determined to start suits.

A provision of the congressional revenue appropriation act to meet the emergency of this summer says that American citizens to whom relief is extended or transportation is furnished shall pay for reimbursement the United States all reasonable expenses not incurred by the government in the relief of such citizens. The act also provides that if a citizen fails to pay, the government may sue for the amount expended.

Too Nervous To Drive a Car?

That's too bad, old man, but you know nervousness is largely due to wrong habits of eating and drinking. If you would quit coffee and use Postum your nerves would steady up.

Postum tastes much like fine, mild Java but there's no drug in it—that's where it's got coffee beat a mile.

Sound advice.

More and more, people are waking up to the harmful effects of caffeine—the drug in coffee—a frequent cause of nervousness, heart flutter, dizziness, headache and other ailments.

Instant Postum

is the soluble form of the original Postum Cereal. A level teaspoonful of the crystalline powder in a cup of hot water makes a delicious food-drink instantly. 30c and 50c tins.

The convenience of Instant Postum is seen at a glance, but some prefer the original Postum Cereal which must be thoroughly boiled—15c and 25c packages. Grocers sell both kinds and the cost per cup is about the same.

A change from coffee to Postum has been a good thing for thousands.

RUSSIANS TAKEN BY TEUTONS.

Berlin, July 21.—The Vossische Zeitung estimates that using official figures, the number of Russian prisoners taken by the Germans since the outbreak of the war is 175 officers and 66,780 men.

RUSSIAN NUT TO AVOID CRACKERS.

London, July 21.—(2:22 a.m.)—A Petrograd dispatch to The Morning Post says:

"Grand Duke Nicholas has maneuvered to bring the enemy into positions which will enable him to throw a serious force on either side. Seldom in history has a great commander been so tactically sound as the grand duke for the application of this principle."

"The jaws of the German nut cracked, and the grand duke has no intention of allowing the enemy to cut their way into the Russian line with the smooth co-operation necessary for this."

"The grand duke has decided to deal with the Russian nut first, meanwhile holding off the southern attack."

FIGHTING BITTER, AUSTRIANS REPORT.

Vienna, July 21.—(Via London.)—An official statement from general headquarters tonight said:

"The enemy has made a new stand south of the railway line between Choin, Lublin and Ivankovo. Despite stubborn resistance the allied forces (Teutons) penetrated the enemy's lines at several points."

"Near Rozan our corps, in combination with German battalions, cut their way into the hostile lines. Between the Petritsa and the Vistula Archduke Joseph Ferdinand's army met strong resistance."

"On both sides of the Borzechow our troops in the morning broke through the enemy's stubbornly defended positions. Today took thirty officers and 4,000 men into captivity and captured 100 machine guns."

"Following again broke out in east Galicia near Sokol."

"On the Danube the situation is unchanged."

Stoy-Croley.

The marriage of Miss Etta Gertrude Stoy and Mr. Forrest Glen Croley took place yesterday morning at the home of Mr. and Mrs. W. W. Tomlinson, of the city. The ceremony was performed by the Rev. E. F. Foster, of College Park. Miss Nell Croley was maid of honor. The bride wore a traveling suit of dark blue cloth, with hat to match, and carried a bouquet of lilies and roses. The maid of honor wore a dress of blue and white, and carried a bouquet of pink roses. Relatives and friends witnessed the ceremony, which was followed by an informal reception, when refreshments were served. Mr. and Mrs. Croley left on the noon train for a visit north. On their return after the first of August, they will be at home at 25-Druid place.

Informal Dance.

Mr. and Mrs. Paul E. Rogers entertained informally at their country home, "Navajo Lodge," out from Elliott, for their guests, Mr. and Mrs. Robert M. Pierpont and Miss Eula Duffee, of Lancaster, S. C. The house was beautifully decorated with woodland ferns and flowers. An old-fashioned string band accompanied the quadrille and the more modern dances. About one hundred guests enjoyed the hospitality of Mr. and Mrs. Rogers.

At East Lake.

The mid-week country house of the Athletic club will be a bright event of tonight.

Miss Gordon Entertains.

Miss Ellen Magnus Gordon entertained at luncheon yesterday in compliment to Misses Elizabeth and Sarah Dowling, of Augusta, the charming guests of Mrs. Gordon.

SPLENDID BUSINESS NOW BEING ENJOYED BY NATIONAL LIFE

At a meeting of the directors of the National Life insurance company, recently held at the home office, in Montpelier, Vt., it was shown that while the National Life is now in its sixty-sixth year, it has never enjoyed a more satisfactory and profitable business than at the present time. Its mortality during the past year was the lowest in its history, and its investment experience, its rate of interest earning was higher than that of any other company in the management, to reduce the expense ratio so as to result in a lower insurance cost to the insured than heretofore.

The reports received at the meeting showed that the insurance issued and received amounted to 5,888 policies for \$1,345,745, and the total outstanding insurance advanced to 104,452 policies, amounting to \$19,322,235.55. The directors voted a distribution of surplus in dividend of \$1,250,000, which is the largest single dividend declared by the company in its history.

The business secured under the supervision of George M. Hope & Co., in the Grant building, has enjoyed its full share of the increased prosperity of the National Life, and received the congratulations of the directors of the splendid amount of business handled by it.

must enter into the optical business in order to make it a success. High grade workmanship, careful attention, honest dealing and the grinding of the greater portion of the prescriptions for glasses written by our better oculists has fully demonstrated the fact that there is something indescribable about the way in which we conduct our business that few opticians have been able to understand.

The real comfort we have given thousands of people all over the country with our Toric Invisible Kryptok Bifocals has had much to do in making us leaders of the optical business of the entire South.

We know when we are able to suit you with glasses; if you need the service of an oculist we so advise. Ask any of our patrons.

Finds a Cure For Pellagra

Harvey, Ia.—Mrs. S. W. Spruell, of this place, writes: "I suppose it will be a great pleasure to you to know that you cured my child. She had pellagra very bad and the doctor said she never would get well. She is well of pellagra and looks fine."

"You may use this letter as a testimonial if you wish. Great benefit have you done my daughter, Mindie Abrams."

There is no longer any doubt that pellagra can be cured. Don't delay until it is too late. It is your duty to consult the resourceful Baughn.

The symptoms—hands red like sun-burn, skin peeling off, sore mouth, the lips, throat and tongue a flaming red, with much mucus and choking; indigestion and nausea, either diarrhoea or constipation.

There is hope; get Baughn's big Free book on Pellagra and learn about the remedy for Pellagra that has at last been found. Address American Compound, 1000 N. 2nd St., St. Paul, Minn. Remembering money is refunded in any case where the remedy fails to cure—(adv.)
